

ENLIGHT Lifelong Learning Micro-Credentials*Short, flexible, quality-assured learning offers co-created across ten European universities*

ENLIGHT is a European University alliance uniting ten leading universities across Europe. Together, we develop high-quality, flexible micro-credentials that mainly address rapidly evolving societal and labor-market needs. Designed in line with the European approach to lifelong learning, our offers empower adults, professionals, and organizations to acquire recognized, future-oriented competences that support career development, innovation, and resilience — in formats that fit work and life.

What is an ENLIGHT micro-credential?

- A short, targeted learning experience (smaller than a degree) focused on clearly defined learning outcomes, developed by at least two ENLIGHT partner universities
- Typically, 1–30 ECTS (European Credit Transfer and Accumulation System), a course or a coherent learning package
- Flexible formats: online, blended, hybrid, or intensive delivery
- Quality assured and assessed by ENLIGHT partner universities
- Stackable and portable – build your learning pathway over time

For lifelong learners

- Advance your skills or pivot your career with academically rigorous, practice-relevant learning
- Learn in an international environment with European experts and peers

- Obtain transparent, outcome-based credentials aligned with the European approach to micro-credentials
- Access flexible learning that respects professional and personal commitments

For employers and organizations

- Address concrete skills gaps with short, verified, outcome-based learning units
- Collaborate with ENLIGHT universities to co-design tailored learning solutions
- Support staff development with recognized, quality-assured academic credentials
- Strengthen innovation capacity and European talent mobility

The ENLIGHT added value

- Co-created across at least two ENLIGHT universities, ensuring multidisciplinary perspectives and shared excellence
- Connected to ten regional innovation ecosystems across Europe
- Designed in line with the European Union's approach to micro-credentials and lifelong learning
- Contributing to a competitive, resilient and future-ready European skills base

How to engage

1. Explore upcoming ENLIGHT micro-credentials and formats.
2. Register as an individual learner if you identify a course that matches your needs or contact a partner university to discuss tailored offers for your organization.
3. Stack micro-credentials progressively as your professional needs evolve.
